Quick Look

VISION

We believe that the size of the team doesn't determine the magnitude of achievements. Our small, yet passionate team of dedicated professionals uses their creativity and expertise to deliver extraordinary solutions. Together, we work on transforming your ideas into successful digital stories.

MISSION

To be the trusted partner for businesses, collaborating to craft exceptional software solutions that exceed expectations.

UX/UI DESIGN

We focus on crafting intuitive and user-friendly designs for both mobile and web applications. Through thorough user experience research and prototyping, we create visual designs that not only attract but also retain users, enhancing overall engagement.

WEB DEVELOPMENT

Our team designs modern and responsive frontends for your websites, ensuring they look great and function smoothly on all devices. We develop custom web applications tailored to your specific needs and integrate them seamlessly with your existing systems and services.

CONSULTING SERVICES

We partner with you to understand your unique challenges and goals, then craft tailored solutions that drive growth and optimize your operations. We remain your trusted advisor throughout the transformation journey, providing ongoing support and valuable insights to ensure long-term success.

MOBILE APP DEVELOPMENT

We specialize in creating high-performance mobile applications using Flutter. Our custom solutions cater to both iOS and Android platforms, ensuring seamless integration with backend services and APIs to provide a robust and efficient user experience.

PROJECT MANAGEMENT

We ensure that your projects are delivered efficiently, on time, and within budget. We combine thorough planning with a collaborative approach, providing expert guidance and proactive problem-solving throughout the entire project lifecycle.

EMPOWERING YOUR FUTURE

Our commitment to you extends beyond delivering exceptional results today. We build long-term partnerships to fuel your sustainable growth. Together, we'll identify opportunities, refine processes, and cultivate innovation – shaping a future brimming with possibilities.

NJEGOŠ VASIĆ

UX/UI Designer &
Front-end developer

JELENA PAVLOVIĆ

Project Manager &
Quality Assurance

ZDRAVKO ČOLIĆ

Mobile Developer &
Full-stack developer

At Codewave, our team is more than just people working together; we are a group of friends dedicated to providing the best experiences for our clients. We believe that together we are stronger, and we try to show this in everything we do.

We create a friendly environment where everyone's ideas are heard and valued. We encourage open communication and sharing ideas because we believe different perspectives lead to innovation.

We support and inspire each other to be more creative and excellent. Whether it's through brainstorming, design reviews, or simply helping out, we are always there for one another.

We celebrate our successes as a team, recognizing and appreciating each other's hard work. We think acknowledging efforts is key to a positive and motivating work environment.

Through shared experiences and challenges, we have formed strong bonds that go beyond work. We see ourselves not just as colleagues, but as friends, united by our common goals and values.

Our Services

UX/UI DESIGN

We prioritize the creation of intuitive and user-centric designs for both mobile and web platforms. By conducting extensive user experience research and prototyping, we develop visual designs that captivate and retain users, ultimately boosting overall engagement.

MOBILE APP DEVELOPMENT

Our expertise lies in developing high-performance mobile applications using Flutter. We deliver custom solutions for both iOS and Android platforms, ensuring seamless backend service and API integration for a robust and efficient user experience.

WEB DEVELOPMENT

Our team excels in designing modern, responsive frontends for websites, guaranteeing optimal appearance and functionality across all devices. We create custom web applications tailored to your specific requirements and seamlessly integrate them with your existing systems and services.

PROJECT MANAGEMENT AND CONSULTING

Our project management and consulting services involve thoroughly understanding your needs and clearly defining project goals. We carefully plan and oversee implementation, optimizing processes and resources to ensure efficient and successful results.

Projects

We develop a wide range of websites and mobile applications, tailored to meet the unique needs of our clients. Our focus is on delivering high-quality digital solutions that enhance user experiences and drive business success.

In the following sections, we will showcase some of our projects, highlighting our expertise and commitment to excellence.

Projects showcased

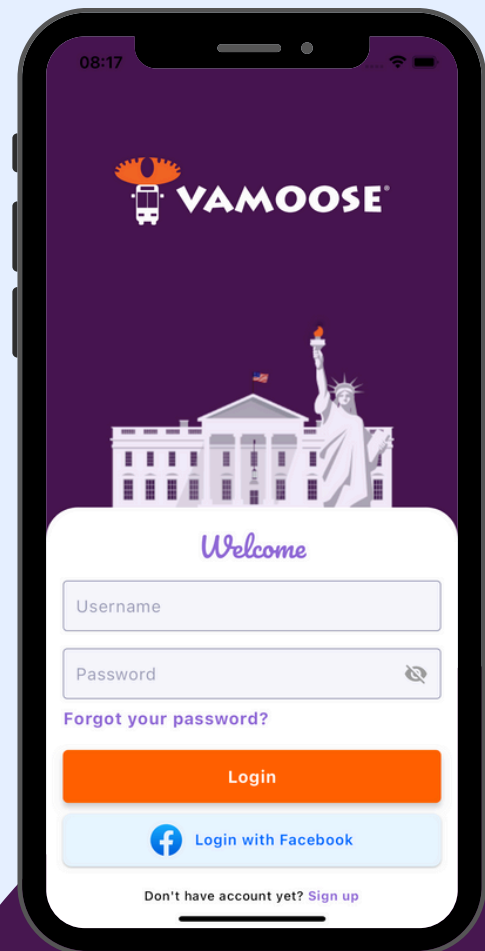

- Vamoose
- Vimeksim
- HabitWave
- Dex Solutions

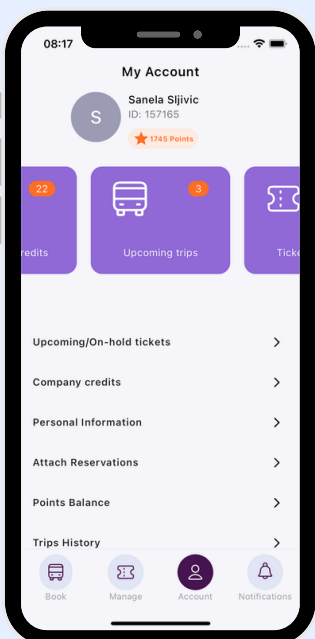

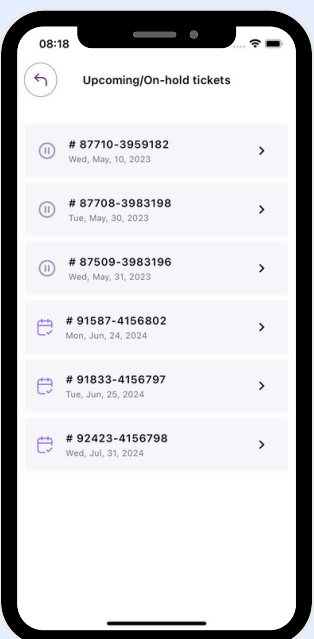

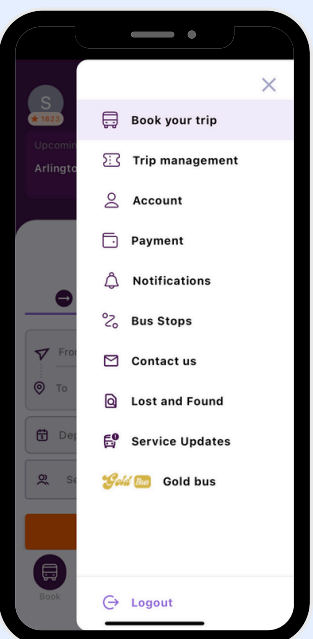

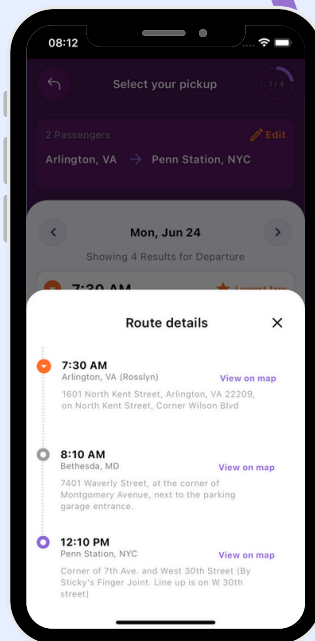

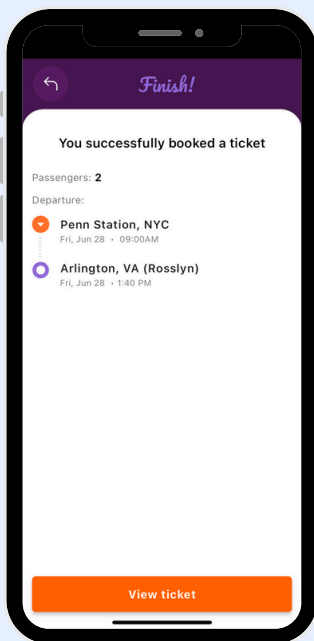

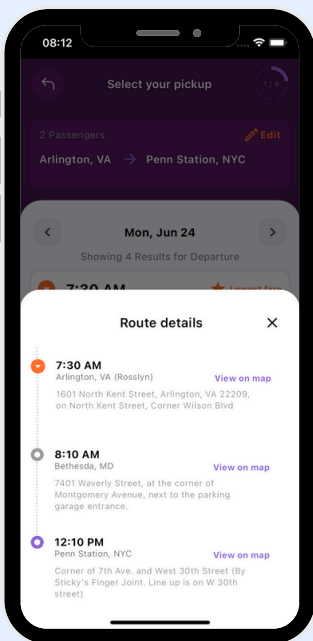

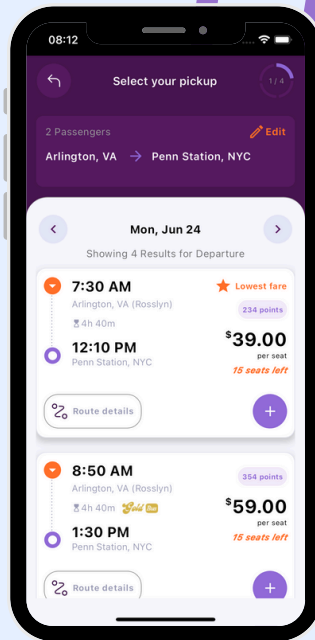

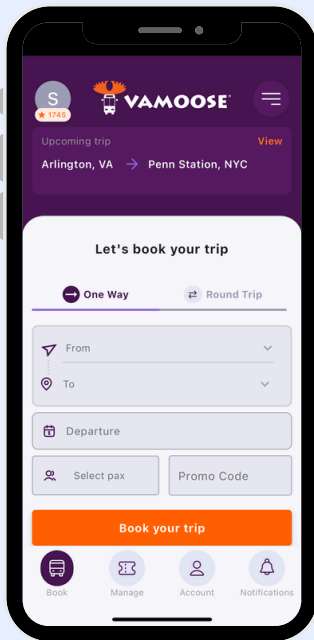

Vamoose

Bus ticketing app for easy ticket purchases and management.

The bus ticketing app offers a seamless experience for users, allowing them to purchase tickets without the need to log in, streamlining the ticketing process. For registered users, additional features enhance their experience, such as the ability to use earned points for ticket purchases and manage their tickets efficiently. This includes options to change departure times, place tickets on hold for future use, or exchange them for other tickets.

Moreover, logged-in users can benefit from tracking their purchase history, travel records, and points, providing them with a comprehensive overview of their travel activities. The app's points system incentivizes users to continue using the app by offering rewards for their loyalty. The user-friendly interface ensures easy navigation and accessibility for all users, while secure payment options guarantee the safety of transactions. Customer support is also available within the app, ensuring that users can get assistance whenever needed.

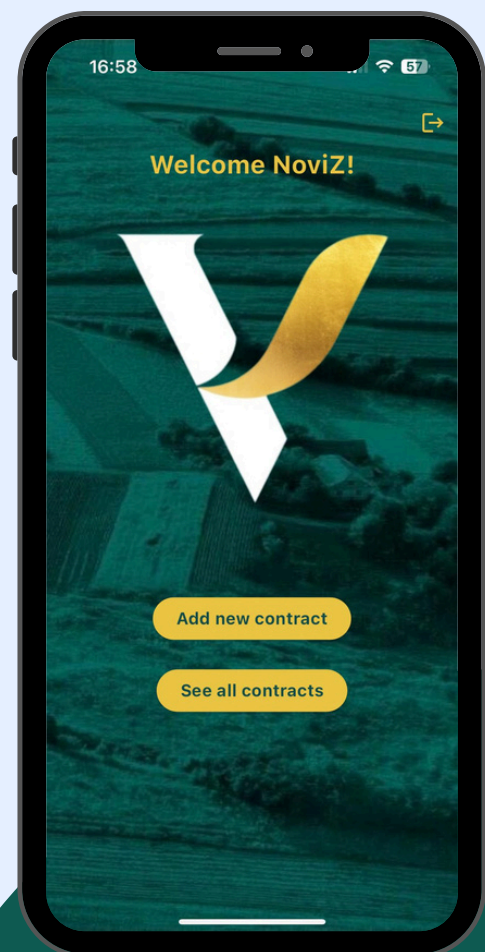

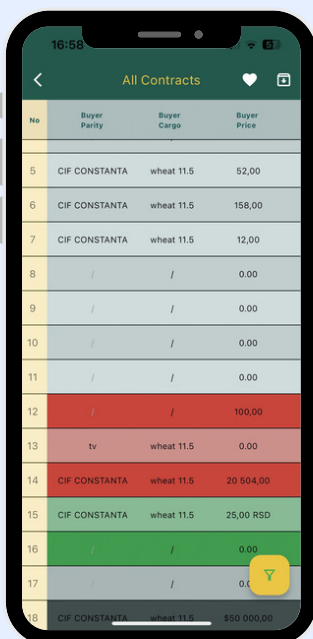

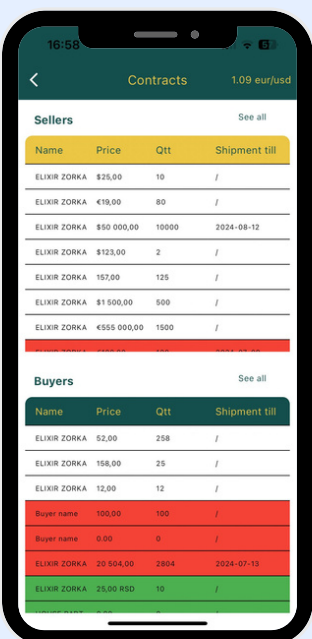

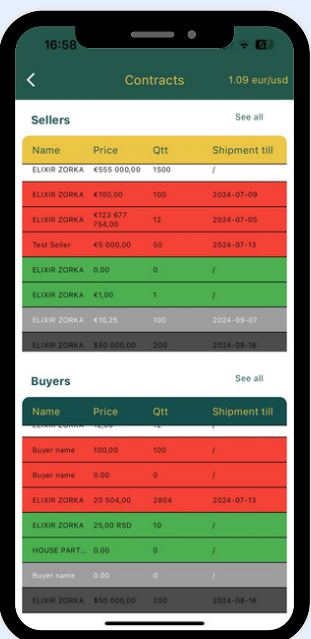

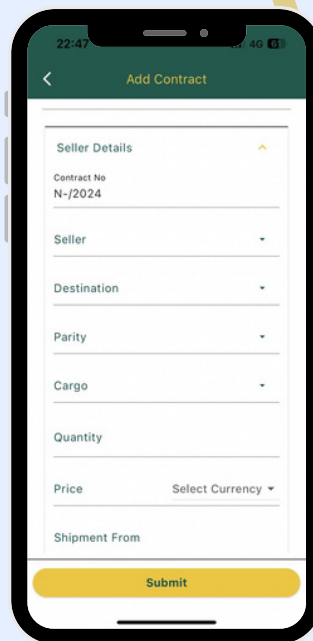

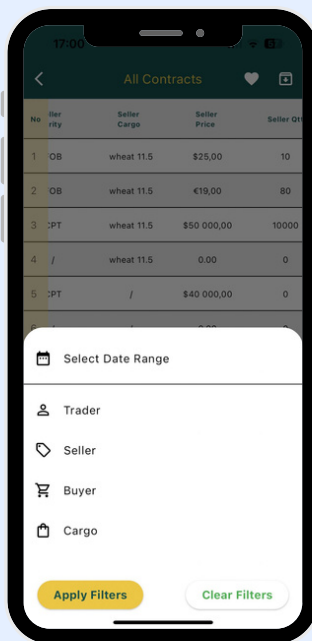

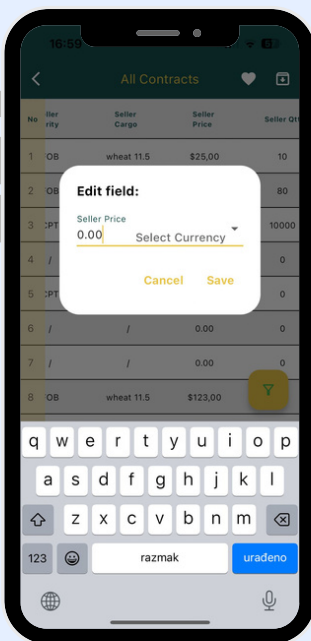

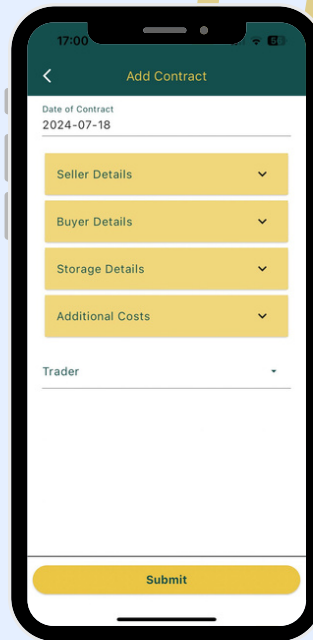

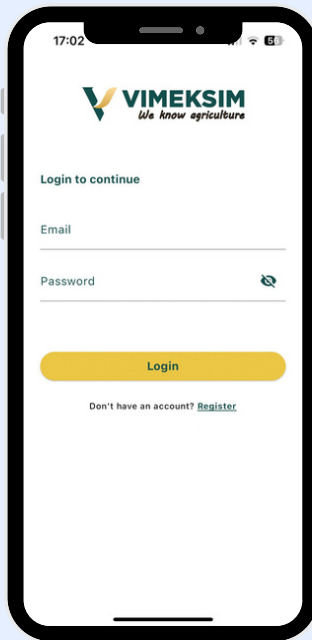

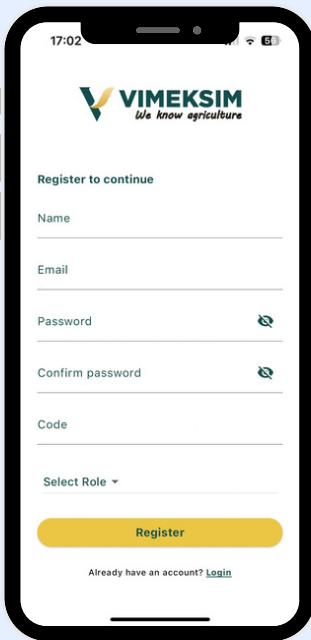

Vimeksim

A contract management application designed to streamline operations for Vimeksim employees.

The Vimeksim Contract Management app offers a comprehensive platform for employees to efficiently manage and track contracts. Tailored specifically for Vimeksim's needs in the agricultural sector, particularly the import and export of wheat, this app simplifies the process of handling contracts. Created to enhance productivity and accuracy in managing contracts, our goal is to ensure smooth and effective operations within the company.

Users can easily add new contracts, view existing ones, make necessary edits, and archive completed contracts. The app's intuitive interface makes it easy to navigate and manage contract details, with dropdown lists for many fields to ensure quick and error-free data entry. Color-coded status indicators provide clear visibility of contract conditions, such as the presence of a buyer, imminent shipment dates, and delivery status, helping users prioritize tasks effectively.

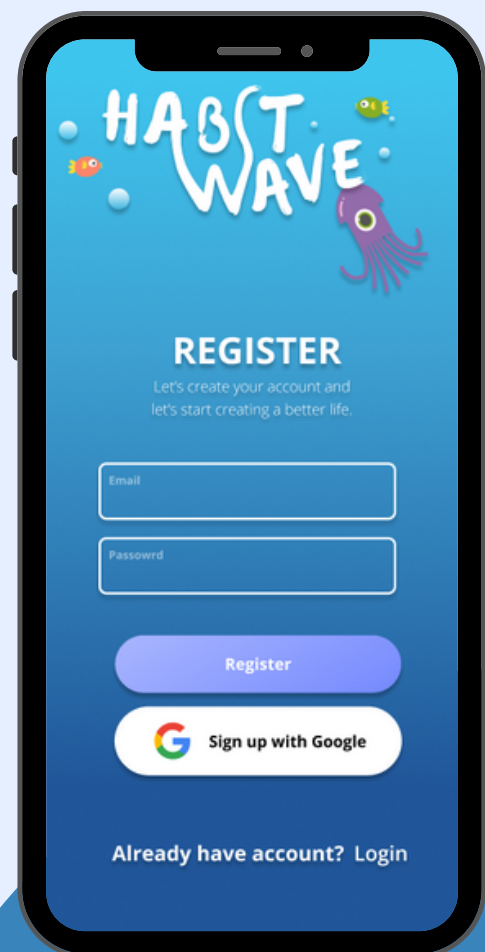

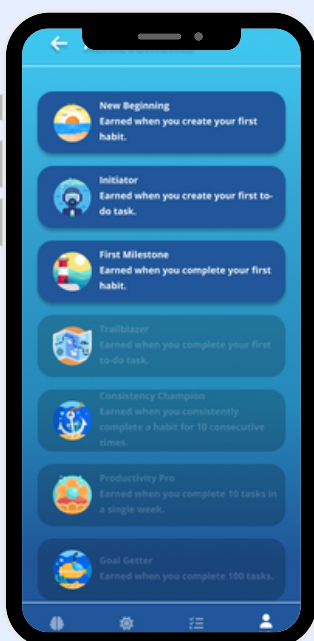

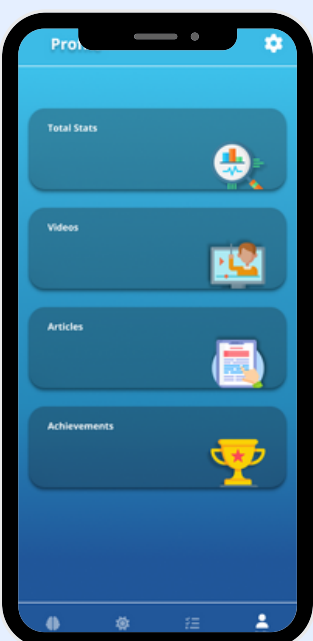

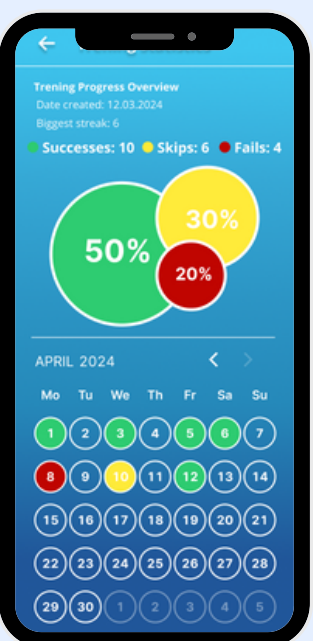

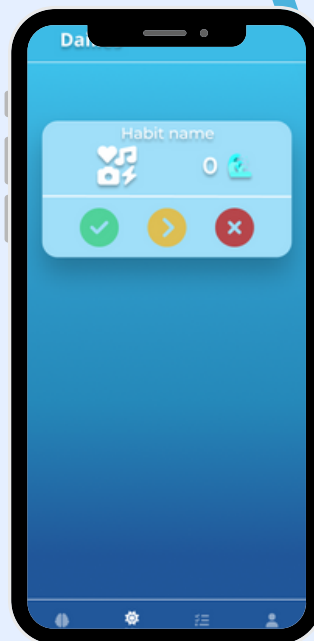

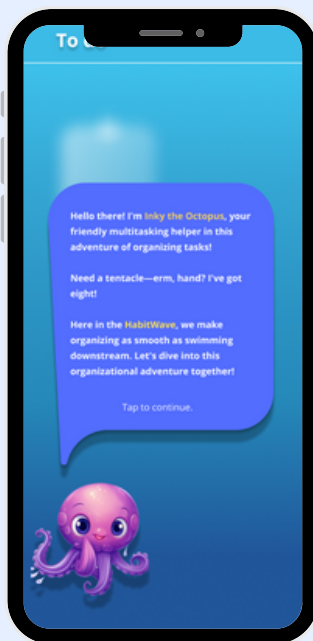

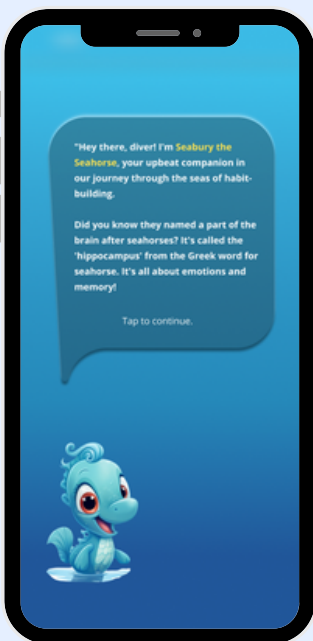

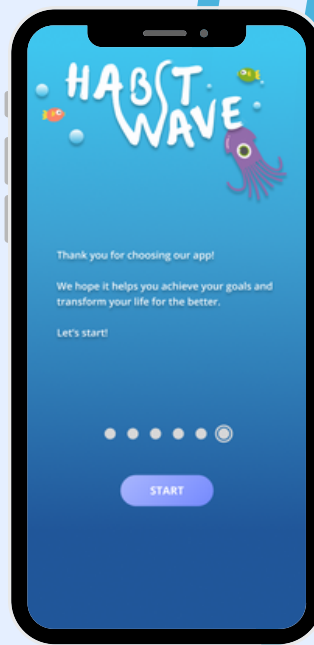

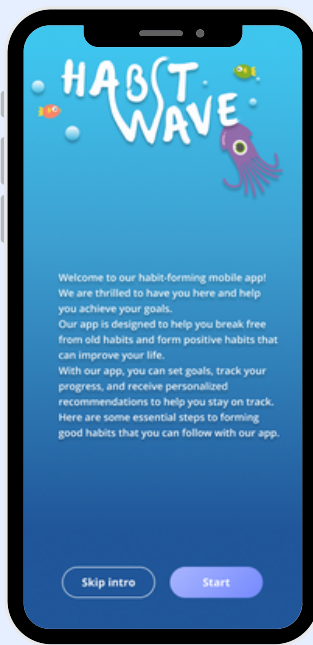

HabitWave

Habit-building app for effective habit building and tracking created for you, by us.

The habit-building app provides users with a comprehensive platform to develop and maintain positive habits through a structured approach. Developed by our team who believe in the power of positive habits, this app was created for you, by us. Our goal is to empower individuals to achieve their best selves through consistent and meaningful habits, contributing to a healthier and happier community.

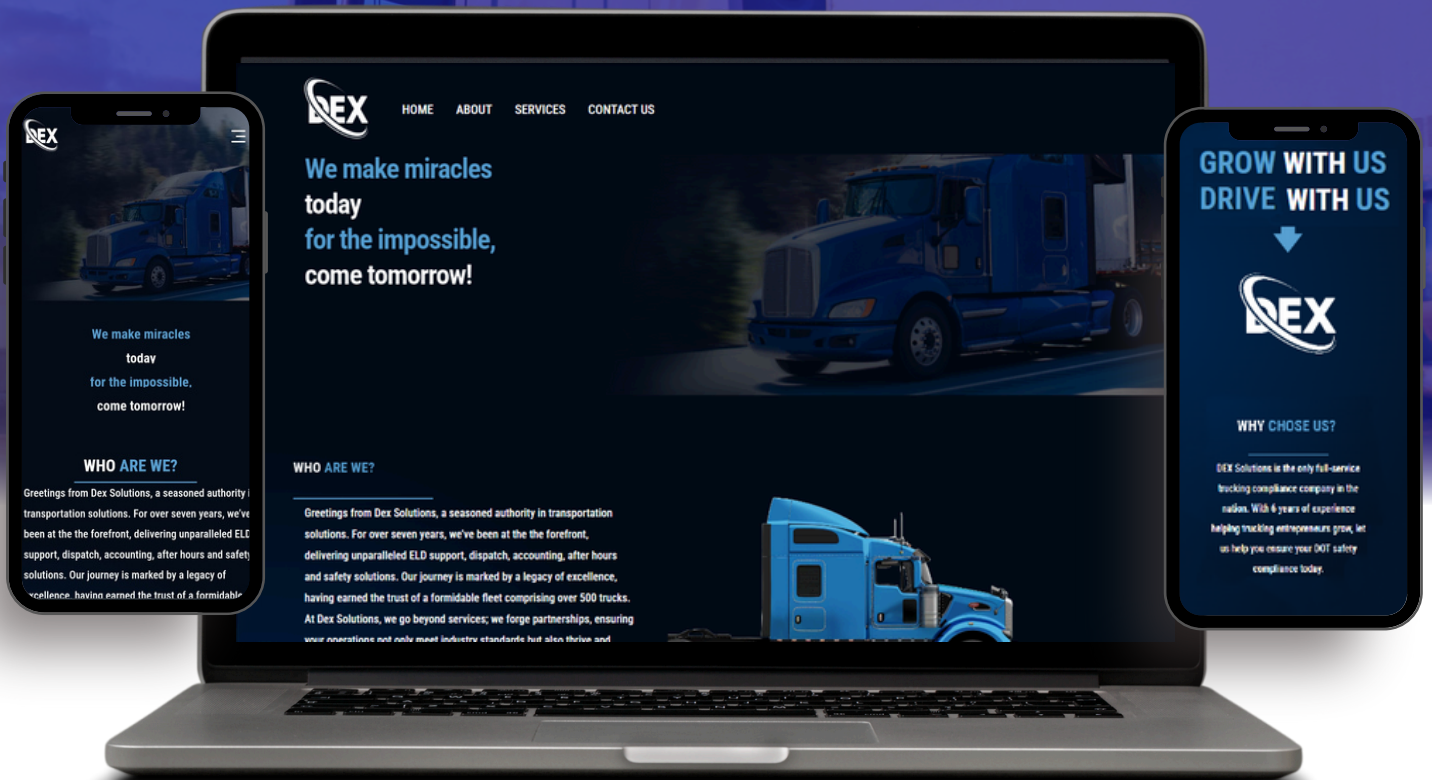

Users can set personalized goals, track their progress, and receive reminders to stay committed to their routines. The app's intuitive interface makes it easy to navigate and manage habit-building activities. It offers motivational tools such as daily tips, streak tracking, and progress visualizations to keep users engaged. By combining these features, the app fosters an encouraging environment for lasting positive changes. The seamless user experience ensures that forming new habits becomes an achievable and enjoyable process, helping users enhance their overall well-being.

TRUCKING AGENCY DEX SOLUTIONS

Dex Solutions, a seasoned authority in transportation solutions. For over seven years, we've been at the the forefront, delivering unparalleled ELD support, dispatch, accounting, after hours and safety solutions.

A comprehensive website redesign for Dex Trucking, created to enhance their online presence and user experience. Custom graphics were created to establish a cohesive visual identity, reflecting the brand effectively. The frontend was seamlessly integrated with the backend content management system, ensuring optimal performance and usability. This resulted in a modern, responsive website that showcases Dex Trucking's services and capabilities, providing an improved experience for users.
